

# Teenage Conceptions

Conceptions among under 18 year olds

Wards with significantly higher rates of under 18 year old conceptions compared to England, 2008-10

## Comments

- There are approximately 200 conceptions among under 18 year females each year across the tri-borough area. Around one third of these result in birth and the remainder in abortion
- The under 18 conception rate in Kensington and Chelsea is significantly lower than the London and England averages. Hammersmith & Fulham is higher than London, and Westminster is similar
- College Park & Old Oak, Wormholt & White City, Queen's Park, Harrow Road and Church Street wards have significantly higher under 18 conceptions compared to England

## Comparison Data

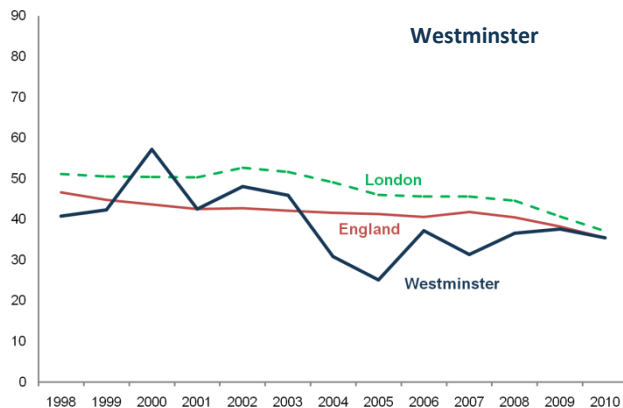

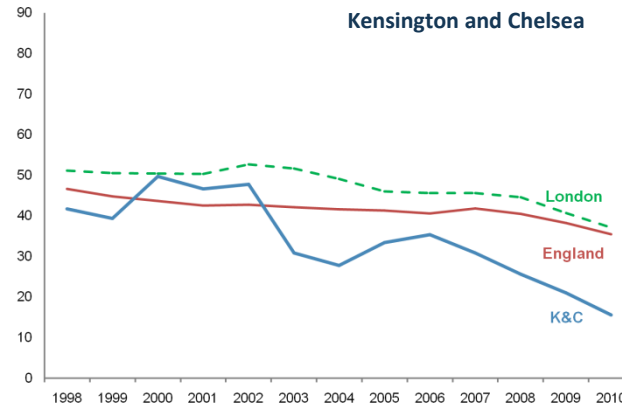

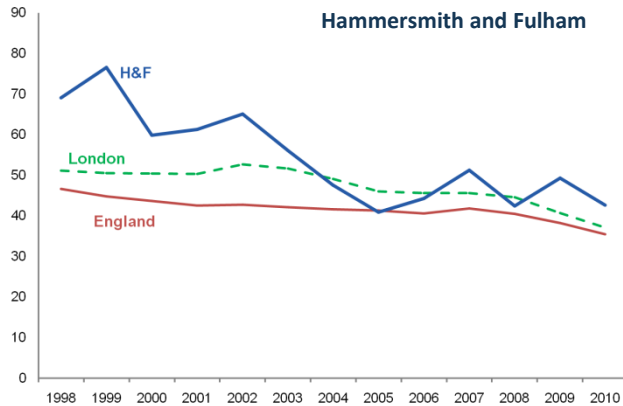

(Annual conceptions per 1,000 females aged 15-17, 2008-10)

H&F	44.8
K&C	20.7
Westminster	36.5
London	38.1
England	40.9

# Teenage Conceptions

Conceptions among under 18 year olds over time

Under 18 year old conceptions per 1,000 female population age 15-17, 1998-2010

Number of under 18 year old conceptions

	2006	2007	2008	2009	2010
H&F	95	105	89	103	89
K&C	65	57	48	41	30
Westminster	83	70	81	87	81
Tri-borough	243	232	218	231	200

## Comments

- Hammersmith Fulham’s under 18 conception rate has fallen substantially over the past decade. However it remains slightly higher than the London and England averages
- The Kensington & Chelsea rate has dropped by two thirds since 1998 and, in 2010, had the lowest rate of any London borough
- Whilst the rate has decreased in Westminster, it has been broadly in line with the national and London trends
